

## CAMP DORAL:

*I've got my golf, you've got your spa ... but what about the kids? "The Kids Are Alright"*

One on property, Doral Golf Resort & Spa, A Marriot Resort is the ultimate family experience, with five championship golf courses, the award-winning Spa at Doral and - for the kids - The Blue Lagoon Water Recreation Park. Add to this Camp Doral, where kids receive a full program of athletic and leisure activities, and Doral becomes one of the most unique luxury family resorts in the U.S.

"Daddy, I caught a fish!"

"Mommy, you should see my serve!"

And of course... "Can we come back next year?"

Doral came up with the idea for Camp Doral when they realized that there is not always such thing as "fun for the whole family all day, everyday." While moms and dads may think a round of golf on one of the nation's most renowned courses is the perfect way to spend the day, their children are more likely to enjoy a variety of sports, games and activities. At the same time, Doral recognized that a vacation is more special when you can share it with the ones you love.

To bridge the gap, the resort started by building an extensive recreation complex that included a 1,200-square-foot indoor facility in the heart of the Blue Lagoon Water Recreation Park, with a video game room stocked with games, toys, movies, and sports equipment. The Blue Lagoon Water Park pumps more than one million gallons of water daily throughout three different pools. Accented with cascading waterfalls and rock façade, the 125-foot Blue Monster slide offers a thrilling 35-foot drop. The water park also features water volleyball, aquatic games, 20 poolside cabanas with amenities and Bungalou's Bar and Grill restaurant.

Next, Doral recruited a team of high-energy "Funologists" who developed a program of wild, wonderful and age appropriate activities for children five to twelve that are guaranteed to keep them smiling and safe.

These "Funologists" (some might call them camp counselors) are experienced playmates with professional, college level training education who take care of your children swimming and fishing and play just about any game, from tennis, golf, soccer, basketball to volleyball, softball, pool games and lawn darts. They'll also nurture your child's creative side, with music, nature walks, arts & crafts and more.

For guests under five, Doral offers professional babysitting services, scheduled through the concierge.

What more could a parent ask for ... except maybe a beautiful setting, impeccable service, a sparkling spa and swimming pool, the latest pampering and fitness trends, and did we mention we've got that?

For reservations please call (800) 71-DORAL, or visit Doral's website at [www.doralresort.com](http://www.doralresort.com).
